ACHINTYAAH FOUNDATION

Renewing Faith,
Restoring Temples

About Us

Welcome to Achinthaah Renovation Foundation, Our mission transcends mere restoration, aiming to redefine the sanctity and accessibility of sacred temples. Our target is to achieve 2,000 temples under our adoption program. Beyond our dedicated efforts in adopting and revitalizing these revered sites, our vision encompasses a broader scope driven by inclusivity and sustainability. With this program, common people benefit from accessing temples nearer to their homes.

OUR ACTIVITIES

We have embraced three temples into our care.

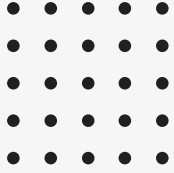

Agasthyamaharshi Temple In Rameswaram

This temple has existed for 1300 years and is now under our trust's care. We have started nitya pooja, naivedya, and prasadam distribution activities in the temple. For upgrading the temple facilities, we are undertaking the renovation of the existing temple structure to make darshan more comfortable for devotees.

Every day, a 50-devotee annadana program has already started, and on auspicious days, we conduct annadana for 500 to 1,000 people. Interested devotees of Agasthyamaharshi can donate to the trust to conduct special pooja in their name and family name and perform annadana on their specific important family dates to receive the blessings of Agasthyamaharshi.

Mata Bhadra Kali Temple In Tiruchirappalli (Trichy)

The existing temple is very small, and we are developing a new temple on one acre of land for Kali Mata under our trust's activity to create a comfortable darshan and to program other pooja events in the temple.

Presently, pooja and naivedya activities are ongoing. Once the new temple is complete, the annadana program shall start in the new temple. Any devotees of Mata Bhadra Kali can donate to our trust for the new temple and take the blessings of Mata Bhadra Kali.

Sri Bhakta Anjaneya Swamy Temple

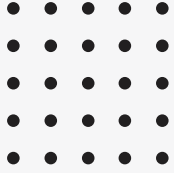

Madanapalle, A.P.

Our Poojya Guruji Swami Venkateshji from Madanapalle constructed a beautiful temple complex of Sri Bhuvaneswari Devi in Maha Merupuram area of Madanapalle and made a magnificent statue of Swami Anjaneya, which is 272 tonnes and 32 feet tall, carved from a single stone of granite.

Our beloved Swamiji entrusted the installation program of Swamy Anjaneya statue to our trust, and we have taken this wonderful opportunity of service to Lord Anjaneya Swamy as a great honor.

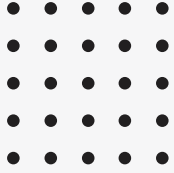

We have started the activities of the installation program, which will cost nearly half a crore rupees. Our trust is also providing two qualified priest families to Swamiji's temple complex to perform poojas, homas, etc., at our trust's cost to support the pooja activities of Swamiji's temple complex.

Any devotees of Lord Anjaneya can offer donations to our trust to provide more services to Lord Anjaneya Swamy and conduct special poojas in their gotranamas to receive the blessings of Lord Anjaneya Swamy along with our Swamiji's blessings.

For running the adopted temples, our trust shall appoint one priest family to perform nitya pujas, arti, and prasadam distribution to the devotees. The priest family will also perform special pujas on request of devotees and during important festivals in the temple. The temple priest family shall prepare prasadam daily for the devotees and make arrangements for annadana distribution to 50 people. The annadana program shall be funded by our trust, and donations given by devotees above Rs. 500 shall go to the trust account to serve more people through food distribution.

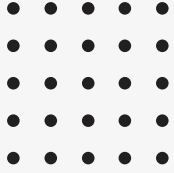

As we keep two Ongole cows in every temple, we provide one cow caretaker family to look after the cows and keep the temple clean. The cow caretaker family will be paid Rs. 20,000 per month as salary from our trust.

Any donations that come to the temple below Rs. 500 shall be given to the priest family and the cow caretaker family. Donations above Rs. 500 shall be taken by the trust and used for the welfare of the two families working for the temple, such as supporting their children's education, family medical emergencies, and life insurance coverage for the family.

With this policy of the trust, we are going to employ around 4,000 people, and along with their families, around 10,000 people shall get a livelihood from our trust. Around 4,000 cows in the temples are also fed by our trust, which is a great mission for humanity and a service to our gomatas, a great boon to our Hindu dharma.

This kind of mega project needs the blessings and support of all cow-loving and God-loving people in the form of donations and any material support for this spiritual cause to make it a grand success.

Annadana Program in Our Temples

Our trust is committed to providing annadana programs in all our temples. Nitya annadana activity shall be conducted to provide food for 50 people per day.

On auspicious days, annadana activities shall be done for 500 to 1,000 people based on the location's demand. People/devotees can donate to annadana programs and get the blessings of Mata Bhadra Kali, Agasthyamaharshi, and Anjaneya Swamy.

Donation receiving details and payment links are provided on our webpage.

GOSHALAS OF OUR TRUST

www.achintyaah.org

Our trust is dedicated to providing 2 Ongole cows for each temple we adopt. We are developing goshalas in 9 prominent areas for accessibility to our temples and to coordinate the well-being of our temple cows.

Our trust's total estimation of cow requirements is 4,000 cows overall for all the temples. We purchase quality cows and maintain 9 major goshalas in 9 sectorial areas of South India. Our first goshala is starting in Ooty on a 6-acre land parcel to accommodate 500 cows. All the cows we take are Ongole cows from Andhra Pradesh, known for their beauty, resilience to any temperature, and strength.

Our trust is committed to taking care of our cows till the end of their lives, and we perform antima sanskara for our cows from our trust in the last stage of their lives. People who have love and respect for cows can donate to our trust.

We are providing a godana program to donors. If they give Rs. 50,000 as a donation for cow seva, one beautiful Ongole cow shall be named by the donor family name. A godana puja shall be performed, and the entire care of the cow shall be taken by our trust.

Every year on the donor's birthday, a godana pooja shall be performed, and prasadam sweet made out of that particular cow's milk shall be given to the donor's family. The donor can also visit the goshala or temple where the cow is stationed. People who have love and bhakti for cows can also provide grass, feed, medical care, etc., based on their interest.
